

Lieut.-Governor Was Impressed Greatly by North

For the first time since Sir James Douglas was governor of British Columbia, the northern interior of the province was honored last week by a visit from the Lieutenant-Governor, Hon. R. R. Bruce, who, for the first time during the many years he has been a resident of the province, was in the northern interior.

In company with his niece, Miss MacKenzie, Hon. Dr. Sutherland, minister of public works, and Mrs. Sutherland, Hon. A. M. Manson, attorney-general, and son Alex, and Mr. Dixon, His Honor visited Prince George on Dominion Day and officially opened the stampede, the biggest two days of sport that have been put on in the north. Following the stampede, the party motored through the Nechako Valley, the Bulkley Valley, and down to Hazelton, where they were guests at the Hospital where they had luncheon Sunday. They visited several points of interest and in the late afternoon when returning to Smithers they called on the editor of The Omineca Herald.

His Honor expressed great surprise and much pleasure at the extent of country we have in the north. It was much larger and its resources much greater than he had anticipated. The vastness of the valleys, when compared with the valleys of the south, was a revelation to him, and he is prouder of British Columbia than ever he was before. He took a great interest in the agricultural development that has already taken place, as well as in the development of mining and the timber industry.

Miss MacKenzie and Mrs. Sutherland were delighted with the trip and the wonderful scenery. The Hagwilget canyon and the high level bridge, together with the beautiful scenery surrounding, aroused their enthusiasm. Mrs. Sutherland said she would like to come back here and spend at least a week. She was quite sure she could not take in everything in the district in less time.

The party left for Smithers about 5.30 on Sunday evening and intended reaching that town in time for supper. From there they returned to Prince George and then back to the south. The only unfortunate part of their visit was its brevity, but there is no doubt that every member of the party will be back in the not distant future.

A son was born on Friday, July 2, at Cedarvale, to Mr. and Mrs. M. F. Burke, of New Hazelton.

A party of Smithers fishermen spent Sunday at the Hagwilget pool and had fairly good luck with the salmon.

Smithers People Entertain Huge Crowd July First

Smithers Athletic Association and the local lodge of the Sons of Canada staged the biggest and best celebration on July First that Smithers or any other town in the district has been able to achieve thus far. The organization of the sports program and the different forms of entertainment was excellent. From the time the first race was called everything ran smoothly and on time, so that when the last main event was announced it got under way only about five minutes after schedule. It was something new with such a large program.

The day was bright and hot. The roads were in excellent condition and the people went to Smithers from all directions until there was gathered one of the largest crowds the town has yet been called upon to entertain.

The program was started off with a big parade of children, adults, autos and clowns, and marched to the exhibition grounds where everything was in readiness. The program included over fifty events in the line of field sports, a baseball game between Smithers and Telkwa, a lacrosse game between two local teams, and a soft-ball game between two local teams of ladies.

There were refreshment booths and other means of entertainment and every place did a big business. The gate receipts were large. The dance in the evening was one of the best ever. The hall was uncomfortably crowded, but there was a cool breeze which added much to the comfort and pleasure of the affair.

During the afternoon many visitors made side-trips to the lakes and out into the farming community, to try to cool off. The sun was, if anything, a little too hot to make a long afternoon in the open as enjoyable as it otherwise would have been, but that was no fault of the committee in charge of the affair, who did their work well.

The receipts of the day were around the thousand-dollar mark, and after the expenses are all met the Athletic Association will have several hundred dollars to their credit. This will put them financially on 'easy street'.

Skeena river mills are now figuring on supplying the grain ships with lumber for lining and with logs and squares for deck loads. Times will be good for the lumber mills if they get this business.

Mitchell E. Newman has received an appointment to teach the public school at Queen Charlotte City and will commence his duties at the beginning of the fall term.

Continue Shaft and Drifting on American Boy

W. S. Harris, who will have charge of operations on the American Boy mine, is expecting to start work this week, for the Vancouver capitalists who have purchased a controlling interest. The first work will be to continue the shaft on the No. 3 vein which is now down 270 feet, to a depth of 300 feet with a 10-foot sump. Then they will drift on that vein and continue the work until the property is opened up sufficiently so that regular shipments can be made.

A good deal of work has been done on the American Boy mine in years past, particularly on the No. 3 vein. A good deal of ore has been shipped to Trail smelter with good results.

A recent issue of the Western Canada Mining News, published in Vancouver, contained the following reference to the deal just completed:

"Control of the American Boy group of claims, near New Hazelton, has been acquired by Vancouver people, another example of our own people interesting themselves in development of good mining properties in the province. Those interested in the deal are Fergus R. Macdonald, W. W. Macdonald, A. P. Denby, Dr. R. B. Boucher, Gen. J. Duff-Stewart, and R. B. Webster. The deal was put through by A. Erskine Smith and Archie Smith.

The American Boy group consists of eight full claims located in 1910 by Harris Brothers on Nine-Mile mountain, seven miles from New Hazelton. Considerable work was done on it and shipments made, smelter returns showing 102 oz. silver, 27 per cent lead, and \$3 gold per ton. The low price of metals and the war was the cause of the mine shutting down.

The property is well equipped to start work, and it is expected that shipments will be made before the present season is far advanced.

"Fifteen years ago shares were sold at 25 cents, and those who have held on to their shares should soon find them of value, as both the financial and working ends of the company are in capable hands.

"This property has been the subject of very favorable reports in the reports of the department of mines. W. Fleet Robertson, who for many years was provincial mineralogist, spoke very well of it in 1911, and in 1914 John D. Galloway, then resident engineer in that district and now provincial mineralogist, also told of its strength. In addition, J. J. O'Neill, Dominion geologist, was extremely favorable regarding the property.

Saw Some Wild Nature on Trip Over Trap Line

Michaud Bros. returned to Terrace the first of the week from a summer trip over their trap line between the south fork of Copper river and Kitimaat. For fourteen years or more they have travelled over that territory and admired its beauty, but have never before seen it in summer or when it did not carry a heavy coat of snow.

What they found during the two weeks they were away was a revelation. Many places they went over in the winter without a thought confronted them this summer as deep gulleys and grown up with brush so heavy that it was most difficult to get through. Away above timberline they came upon most wonderful wild flowers, a number of new varieties of which they brought back to plant in their own gardens; wild ducks fostering their young in the turbulent waters of the mountain canyons; acres of wild flowers alive with bees and humming-birds; mountain peaks they never saw before without the snow, and canyons so deep and so narrow that it made them sick to look down.

Even with all they saw, it was too early for them to reach their objective. They had to get home to harvest their strawberry crop, but will go back again and have another try, if not this year, it will surely be next year.

The scenery in that country is most wonderful, and Messrs. Michaud state that it would not be very difficult to get a trail fit for tourists into that region. That, of course, would be some time in the future. It would be only the hardier variety of tourist who could make the trip, even over a trail, and, in any case, there is so much wonderful scenery along the railway that so few have seen. Some day, Michaud Bros., explorers, prospectors, trappers, gardeners, and naturalists, may realize their dream of seeing a flow of tourists over the Copper River country.

Drive River Next Week

It is expected that by the end of the week or early next week the Hanson Lumber & Timber Co.'s boom will be put across the river at Cedarvale and that the logs along the Skeena and Kispiox rivers will be dumped in. There are about a million feet of poles and piling on the river banks and these are badly needed to fill orders. The pole yards at Cedarvale are pretty well cleaned out except for some of the longer poles and not many of them. Small shipments are being picked up at several points along the line, which helps out just now.

Send in your subscription now.

Had Wonderful Trip by Car to Southern B. C.

R. S. and Mrs. Sargent and the family returned on Tuesday afternoon after an auto trip of more than two thousand miles during which they visited Vancouver and several points in the State of Washington. They were away about six weeks and they saw some new country practically every day.

On the trip down they attempted the new main highway, but found they had to ship their car from Ashcroft to Hope over the C. P. R. They motored from Hope into Vancouver. On the return trip they crossed the line into Washington below Everett, then west through the fruit districts and back to the Canadian side, through the Okanagan Valley to Kamloops and thence to the Cariboo road and on north to Prince George where they took in the stampede.

Mr. Sargent stated that there is a lot of fine looking country to the south of Quesnel. Just now it is at its best too. But every foot of that country is under irrigation. It is sandy, and gravel and hot and one of the heavy expenses to get a crop is to get the water. Until one gets to Quesnel one does not see a naturally green field.

From Quesnel north and west there is a wonderful transformation. One travels through an entirely different country. There is no need of irrigation and the farms are all producing splendid crops. Having lived so long in the north where nature has been so kind that to get a crop one has only to remove the trees, turn up the soil and plant the seed, that Mr. Sargent did not before appreciate the great difficulties the pioneers in the south had to overcome before their country came to its present state. Likewise he has today an appreciation of the value of the north country he never had before, although he always was a strong north man. He believes that the opening of the auto roads is going to help populate the northern interior faster than any other agency will do. Personally he is more satisfied than ever to continue in the north in spite of the artificial advantages offered by the south.

The annual school meeting will be held in New Hazelton school tomorrow night at 7.30 o'clock.

The sewing meeting which the W. A. to the H. H. hold monthly will be held at the home of Mrs. Sawle on Tuesday afternoon next.

The New Hazelton members of the W. A. to the H. H. and those interested in the work will put on their annual dance on Friday August 6th. An orchestra from Smithers will supply the music.

BRITISH COLUMBIA

THE MINERAL PROVINCE OF WESTERN CANADA

HAS PRODUCED MINERALS VALUED AS FOLLOWS:—

Placer Gold, \$77,668,045; Lode Gold, \$122,808,190; Silver, \$74,111,997; Lead, \$89,218,907; Copper, \$197,642,647; Zinc, \$39,926,947; Coal and Coke, \$273,048,953; Building Stone, Brick, Cement, \$44,905,886; Miscellaneous Minerals, \$1,594,387; Making mineral production to the end of 1925 show

AN AGGREGATE VALUE OF \$920,919,628

The substantial progress of the mining industry in this province is strikingly illustrated in the following figures, which show the value of production for successive 5-year periods:

For all years to 1895, inclusive	\$ 94,547,241
For five years, 1896-1900	57,605,967
For five years, 1901-1905	96,507,968
For five years, 1906-1910	125,534,474
For five years, 1911-1915	142,072,603
For five years, 1916-1920	189,922,725
For the year 1921	23,066,641
For the year 1922	35,158,848
For the year 1923	41,804,320
For the year 1924	48,704,604
For the year 1925	61,492,242

PRODUCTION DURING LAST TEN YEARS, \$404,649,375

Lode mining has only been in progress about 25 years, and only about one-half of the Province has been prospected; 200,000 square miles of unexplored mineral bearing lands are open for prospecting.

The mining laws of this Province are more liberal and the fees lower than any other Province in the Dominion or any Colony in the British Empire. Mineral locations are granted to discoverers for nominal fees. Absolute titles are obtained by developing such properties, security of which is guaranteed by crown grants.

N.B.—Practically all British Columbia mineral properties upon which work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C. Reports covering each of the six Mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, which Building, Vancouver, B.C., are recommended as valuable sources of information.

The Constitution Argument

The press of Canada are devoting much space on their front pages and editorial pages to the action of the Governor-General in bringing about, finally, the dissolution of parliament. The premier, Mr. King has whined very considerably and has openly attacked the Governor-General with the one purpose of covering up his own great weakness in refusing to accept defeat in the House. The majority of papers, and we believe the majority of the people in Canada, believe the Governor-General took the only course that was open to him under the circumstances. Mr. King has himself alone to blame, and losing his temper and making silly statements and silly threats is not improving his position.

Neither will the people of Canada be fooled by all this constitutional harangue when they desire to have a stop put to the bootlegging and smuggling that has robbed the treasury of this country of so many millions of dollars.

The coming contest promises to be even more bitter than were the last days of the recent session. The Canadian form of government will be attacked, total independence will find advocates, and in some sections religious prejudices will be appealed to in order to conceal any great policy either party may have to advocate. The only hope for a sane campaign is that the constitutional gale will blow itself out before the campaign starts.

The most humorous feature of the political situation at Ottawa is the squirming of the Progressives, who deliberately double-crossed first one party and then the other, with results far from their own liking. The much-self-boasted saviours of the people have turned out to be destroyers of governments.

There promises to be more half-truths and whole-bunk handed out by politicians in the next few months than for any other period in Canada's history. The Governor-General will be used as a smoke screen to hide the real issues.

Too bad the Ottawa government could not have hung on a few short months. The long nights of late fall and winter are so much better for hearing political speeches than are the bright and hot evenings of the summer.

Now that the Progressives have voted themselves out of a salary they are also out of a job, with

no campaign funds to pay another campaign's expenses. Who were the dumbbells?

Life is tough. The people will soon be listening to more hot-air political speeches, and the candidates will try to educate their hearers by the sweat of their brows.

The election guessers are now busy figuring out the date of the next contest. The more general opinion sets it toward the end of September.

Skeena berry growers are more interested in berries and the first wheat ships than they are in the next election.

Too bad parliament adjourned and hung up 48 divorces. Life sure is tough for some.

Development Of Strike Presents Little Difficulty

The reports from the Topley gold and silver discovery have aroused more and more enthusiasm in the interior and there are those who talk about millions. Some already refer to it as greater than the Premier mine and richer than the silver mines in New Ontario.

The dimensions of the dike are now given as 400 feet square and a known depth of 50 feet. The original locators have several open cuts which satisfied them and the end of last week they started a crosscut tunnel at the 50 foot level. The ground is so soft the two men can, it is reported, make six to eight feet a day.

Reports of assays run all the way from \$30 on the surface to \$112 in the tunnel. The values are all gold and silver with a little lead in some samples.

The locators have erected a cabin and ore platforms and are piling up the ore from the tunnel ready for shipment.

"Pat" Aldous Killed

Many people in this district were sorry to hear of the tragic death of A. C. ("Pat") Aldous, who was killed by a falling swing of canned salmon at a Vancouver wharf on Wednesday last week. Pat was working as a longshoreman at the time. His skull was fractured, and he passed away at the Vancouver General Hospital. The late Mr. Aldous was a resident at Hazelton during construction and townsite days, and he was, with Murray, local selling agent for South Hazelton. He was married to Victoria, daughter of Chas. Morison, of Metlakatla, and is survived by his wife and two sons. He was well known in this district, and much sympathy is felt for Mrs. Aldous and family.

The geodetic survey party on the railway will move next week from Cedarvale to New Hazelton where they will make headquarters for several weeks.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to the value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin, "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and the land has been surveyed.

LEASES

For grazing and industrial purposes

Usk

Skeena's Industrial Centre

Geo. Rorie of Prince Rupert was in town in connection with the Skeena Lumber Co.

The First of July was a holiday for the children who, with baskets of good eats, and numerous adults, went on a picnic to the historic site of Kitse-las. This is an ideal spot to sleep away or otherwise enjoy an idle day. Those who remember the steamboat days delight to dream of the days that were. The youngsters had races and games and a real good time.

J. Hamblet and Mr. and Mrs. Herbert Drake, Ketchikan, Alaska, arrived in town last week and made preparations for developing the Silver Mountain claims in which they are interested. Gus Nyberg took several pack horses loaded with supplies to the camp at timber line. The owners intend to get out a bunch of high grade ore to ship.

Hamilton and Kenton, Goat River, Cariboo, were visitors to the district with a view to prospecting. They are friends of Mrs. Kendall and were with her husband, Milo C. Kendall, before he was drowned. Mrs. Kendall has disposed of the placer leases her husband own.

areas not exceeding 640 acres may be leased by any one person or company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts, and the range administered under the Grazing Commissioner. Annual grazing permits are issued, based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers up to ten head.

Miss Edna Dobbie, Copper River, was a week-end visitor of her aunt who accompanied her home Sunday.

Fishery Guardian Sherwood of Terrace was here on a round of inspection.

A. Pete and his partner have hiked to Bornite mountain where they intend to put in the summer on the Bornite King group.

D. E. Moody and R. Lowrie left this week for the Banner-Homestake group twelve miles out on O. K. mountain, to make trail and develop property.

J. Gall with a crew is improving the Chiminess trail. Kleanza creek trail is now in shape to Summit Lake, 18 miles

Smithers

Miss Alice Smith, who has been attending normal school at Victoria, returned to her home here last week.

Mrs. J. R. McIntyre and family left for prairie cities last week to spend the summer holidays with friends and relatives.

Jimmy Hynes, one of the boys convicted of stealing a few months ago, was again up before Judge Young last week on a charge of theft and received a sentence of two years in the industrial school.

Miss M. Hanna, who has served on the local school teaching staff for three years, has resigned. She is spending the holidays at Powell River before taking up teaching at another school.

The summer outing season at Lake Kathlyn, the popular Smithers resort, is now in full swing. Mrs. Birnie's camp is again opened, and among her guests are Mrs. R. Blance and daughter and Mrs. Geo. Brvant and son, Prince Rupert. Of those owning their own homes, Mr. and Mrs. Olof Hanson and family, of Prince Rupert, have moved up, as have Mr. and Mrs. John Dybhaven of that city.

A special meeting of the Native Sons of Canada was held in their lodge-rooms on Wednesday evening of last week, when the local members and a large delegation from Telkwa were treated to a very interesting address by F. Duchemin, Grand Chaplain of the Grand Lodge.

P. J. Job, of Vancouver, who is interested in a group of mineral claims on Hudson's Bay mountain near Evelyn, arrived recently. He now has a crew of men at the mine making a start on an extensive program of development work.

A big farewell dance was held in the Evelyn schoolhouse on Saturday, June 26. The guest of honor was Miss M. Jacquot, who is leaving the district after having taught at Evelyn for the past three years. The schoolhouse at Driftwood was also the scene of a farewell dance recently, in honor of the teacher, Miss Marjorie Roberts, prior to her departure for Prince George to spend the summer holidays with her parents.

Dr. and Mrs. R. C. Bamford and family, of Endako, motored to town on Wednesday of last week and are spending a few days here.

Bert Cox, of Hazelton, is on duty at the local telegraph office, during the illness of Wm. Mitchell, the regular operator.

A baseball team made up of the younger men of Smithers arrived Sunday to play the boys of New Hazelton. Due to a misunderstanding they looked for the game here while the New Hazelton boys and an audience awaited in vain on their own grounds. During the afternoon a scrub team was gathered together, but the visitors were too strong.

Members of the hospital nursing staff are taking holidays during the summer months.

Famous Park Where Indians Once Gathered

Upper—The Pavilion. Left—A Birch-bark Wigwam. Centre—"Tame Teddy" taking his daily dip. Right—S.S. Assiniboia, one of the magnificent Canadian Pacific passenger steamers plying the Great Lakes from Port McNicoll to Fort William and Chippewa Park.

Night after night on the shores of Thunder Bay, long ago, were heard weird chanting laments of Indian braves. Hundreds of members of various tribes then made this inlet in Northern Ontario ring with their shouts and songs, and the rumbling sound of wooden sticks thudding with monotonous regularity on buckskin tom-toms. There the Indians went to hunt and that was the site of many a tribal rendezvous.

For three miles the water front looks out over the spreading waves of the Bay at the Sleeping Giant. The Welcome Islands lie in that entrance while beautiful, picturesque Pie Island is on the southern side. In place of the laboriously hand-made, intricately-decorated war

canoes of Indian days may now be seen processions of great Canadian Pacific passenger and freight vessels, and the fleet of smaller craft plying in and out of Fort William and Port Arthur. Where enchanting Indian laments rose high and clear in the humid air may now be heard the voices of happy English-speaking throngs of tourists.

On the sandy beaches of Thunder Bay has magically arisen a park called Chippewa. Camping grounds, attractive lodges, long, shady lanes overshadowed by towering giants of the forest, and a real, honest-to-goodness, live-animal zoo are among the features which have contributed to the popularity of Chippewa Park.

The three hundred acres of forest lying under the shadow of Mount

McKay were originally part of an ancient National Reserve and rarely ancient Chippewa Nation Reserve and rarely saw the foot of a white man. Now, on the main line of the Canadian Pacific Railway, advantageously situated close to Fort William, the park is visited by large numbers of men, women and children throughout the year.

Canadians are beginning to find that in addition to numerous natural resources Canada possesses unrivalled sites for summer playgrounds, parks and other resorts. Instead of going to other countries Canadians are learning to appreciate Canada first. The changed condition is due largely to improved travelling conveniences by steam, rail and automobile.

Spade Work That Gets The Trade

To get steady sales in satisfactory volume you must build up confidence in your store and its service.

ADVERTISING in The Omineca Herald and The Terrace News will lay the foundation of such confidence. Advertising does the spade work that leads to bigger sales. It will tell the folks about your store, its service. It will tell them about the goods you have to offer.

Let your advertising in The Omineca Herald and The Terrace News be a standing invitation to the people of the district.

TERRACE, B. C., FRIDAY, JULY 9, 1926

No. 22

Novel Features Marked Circus By Native Sons

The circus put on by the Terrace Assembly of Native Sons of Canada on Dominion Day, to raise funds towards their guarantee of \$120 for the Terrace Hospital, was a success financially and in every other way.

Owing to the limited space in the G.W.V.A. Hall, the sideshows, consisting of fortune tellers, bearded lady, animal show, and African dodger, were put on first. At 8.15 the ring events started and consisted of a burlesque cock fight, performing mountain (?) goats, burlesque boxing, painless dentist silhouette, silent barber shop, illustrated lecture in the form of album depicting the different organizations of Terrace, sleight-of-hand artistry, and fire-eating.

The painless dentist made a big hit, and the silent barber brought down the house. The illustrated lecture was so well presented as to make the audience stop and think of how much good the organizations are doing for the community. With the help of an assistant the sleight-of-hand worker performed very cleverly. The last item was an eye-opener even to those who had seen fire-eaters before, and the Native Sons were very fortunate in securing the services of a young man who had been trained for years in doing this stunt.

The Native Sons of Canada would like to thank, through these columns, those who were not members of the organization, but who helped to make this affair a success.

Probably Build Skeena Highway On South Side

P. Philip, deputy minister of public works and chief engineer, in company with G. C. McKay, resident engineer at Prince Rupert, and Assistant Engineer Clark, spent several days in this part of the district the first of the week. On Monday they went out on the Kalum Lake road and also consulted as to the Terrace-Usk road, for which tenders have been called for for the clearing of the right-of-way and on which some bridge work will be necessary, especially the Copper River bridge.

There has been a good deal of discussion as to which side of the Skeena River the main highway should follow. Engineer Clark has been surveying a route for some weeks on the south side of the river and the probability is that is where the road will go. There are not so many difficulties to overcome, and it will open up a large area of new country as well as serve a larger number of settlers there now. It is expected that as soon as the chief engineer is satisfied that the south side is the proper one for

Sport Program In Terrace On Dominion Day

Dominion Day was fittingly celebrated in Terrace under ideal weather conditions for outdoor sports which added materially to the success of the day's activities. The Native Sons of Canada had charge of the program for the entire day, their aim being to raise funds to cover their guarantee to the Terrace Hospital.

The proceedings started with a Calithumpian Parade, which lined up on Kalum Avenue at 11.30 a.m. and made its way to the C.N.R. depot to meet the noon train. A number of floats and artistically-decorated cars formed the feature of the parade. The prize for the best float was awarded that of the Canadian Legion representing an artillery wagon. The entry of the Odd Fellows, a presentation illustrating the necessity of a hospital after a ride on the lodge goat, won the comic prize. The Rebekah Lodge float, "Rebekah at the Well," was well prepared, while that of the B.D. Bridge Club added life and color to the procession.

The afternoon sport program opened with a baseball game between the Native Sons and the Terrace team, which resulted in a rather easy win for the latter by a score of 23-8. Field and track events followed and were featured by an automobile race. Ed. Arkell was the winning pilot.

The Native Sons' circus occupied the early part of the evening. To wind up a highly successful day, a dance followed the circus. Mrs. Atwood's orchestra was in fine form, and encouraged lively dancing, despite the heat. At midnight R. W. Clayton provided appetizing refreshments.

Terrace

St. John and Theo Colthurst have returned from school at Shawnigan Lake for the summer.

Mr. and Mrs. J. 'Anthony of Remo spent Thursday in town.

Donation to hospital—Mrs. Halliwell \$2.00 and a pair of towels.

Mrs. Chas. Raven of Lakelse Lake hatchery was here early in the week.

W. G. Calik of Vanderhoof was here this week.

Dr. and Mrs. Earoyd of Anyox are holidaying at Lakelse.

The Canadian Legion will hold a picnic at Bill Goodwin's farm on July 23.

W. Goodwin of Kallum shipped 300 pounds of wool from his flock this week—the first wool to go from Terrace.

Jack Olson has resumed his old position as diamond drill man for the Anyox Copper Mining Co. at Anyox. Mrs. Olson will shortly be leaving to join him there.

the road, that work at the Terrace end will proceed without further delay.

Here and There

Stormont, the best mine in Nova Scotia, when gold-mining in the province was an industry, is to be re-opened. Until it closed down, twelve years ago, Stormont mine had produced over 575,000 tons of ore, giving an average of free gold of \$4.13 per ton, or \$2,225,000 during its activity.

A record single shipment of Indian motor-cycles, consisting of 85 cases, from Armory, Mass., recently arrived in Tokyo, Japan, having come forward by Canadian Pacific Rail and steamer lines. The demand for motor-cycles in Japan is a steadily increasing one, being a cheap and convenient method of locomotion and well suited to the somewhat narrow roads of that country.

Twenty-one British Rotarians recently came over to Canada on the Canadian Pacific liner "Montclare" en route to the International Rotary convention at Denver. On their return trip they came back through Canada, travelling to Winnipeg and Fort William, and taking the Great Lakes trip on C.P.R. steamboat to Port McNicoll. They returned to the Old Country by the C.P. liner "Montcalm."

The Canadian Pacific Railway has just added two of the new Mount Class observation cars to those running out of Montreal. Five more are just about ready to run and the balance of four cars will be ready for service shortly after these. They are all-steel cars, made up of three compartments, and one drawing room with a parlor room and observation platform. They will be a feature of long-run trains on the C.P.R.

The English football team now touring Canada had one of the most strenuous work-outs in the history of any athletic body. Staying for a week-end at the Chateau Lake Louise they had a practise at an altitude of a mile and a half above sea level, where the thinness and dryness of the air had a wonderful effect upon them. Their captain thought it remarkable that prize-fighters in training had not utilized the marvellous properties of this training camp.

A fourteen-car special Canadian Pacific Railway train carried more than a hundred of the most prominent representatives of banking and financial interests of New York City and State to Quebec, where they held their 33rd annual convention of the New York State Bankers' Association at the Chateau Frontenac recently. Included in the party was Col. J. W. McIntosh, Comptroller of Currency, Washington; and W. J. Donovan, Assistant Attorney-General of the U.S., and several financial specialists of New York's leading newspapers.

While Canadian Pacific train No. 87 was standing on public crossing preparatory to taking passing track, an automobile, occupied by four persons, ran into the side of the train, badly damaging the auto. In another case, a driver said he saw the train and heard the whistle signals, sounded, but too late to avoid running into the side of the engine. Yet again, a touring car, travelling about 25 miles per hour, ran through the crossing barriers at a public crossing in Montreal but did not stop. No injuries were reported in all three incidents.

Representing capital running into billions of dollars, a party of around eighty prominent bankers, financiers and men representing commercial and business interests, recently arrived at the Windsor Street Station, Montreal, from New York, and made a tour of the pulp and paper industries and the new aluminum districts of the St. Maurice and Saguenay Valleys in Quebec Province, with a view to personal inspection of the prospects in those great developments. The party was accommodated with five twelve-section compartments and drawing room sleepers, two dining cars and the private car "Montmorency," the whole being C.P.R. equipment.

Mrs. W. H. Watt, of Amesbury, who has been spending a holiday with her parents, Mr. and Mrs. H. L. Frank, is visiting Prince Rupert for a few days.

Mr. and Mrs. W. O. Fulton and family, of Prince Rupert, have moved to their cottage at Lakelse Lake for the school holiday period.

Simone Defontaine, who has been attending school in Prince Rupert, is spending the holiday under the parental roof.

Mrs. W. C. Sparkes, accompanied by her grandson, Jimmie Walsh, spent the end of the week in Hazelton visiting her daughter, Mrs. T. H. Walsh, who has been a patient in the hospital there.

L. W. Waugh, manager of the C.N. Telegraphs, Prince Rupert, accompanied by Mrs. Waugh, was a week-end visitor in town.

Mr. and Mrs. McKenzie and family, of Anyox, were among the visitors in town over the week-end.

Dr. and Mrs. F. D. Coleman, of Los Angeles, Cal., spent a few days in Terrace at the end of the week.

Mrs. W. H. Watt, of Amesbury, who has been spending a holiday with her parents, Mr. and Mrs. H. L. Frank, is visiting Prince Rupert for a few days.

Mrs. Cassel accompanied by her daughter Edith, has arrived from Calgary to spend a short time with her son, W. Cassel, C.N.R. agent here.

Mr. and Mrs. E. T. Kenney and three children left on Monday for Victoria to visit Mr. Kenney's parents and sisters. They will be joined at Vancouver by their daughter, Marjory, who is the guest of Miss N. Mallott in that city. While in the south Mr. Kenney will represent Terrace Assembly No. 15 at the Grand Assembly of the Native Sons of Canada to be held in Vancouver.

F. Phiscator, J. B. Agar and E. Michaud left on Sunday for Kalum Lake, where they were to spend a short time prospecting.

Miss Betty Anderson is spending a holiday as the guest of Miss Mary Wilson at Remo.

The postoffice building is being brightened up with a fresh coat of paint at the hands of Geo. Powers.

Norma and Beth McCubbin, of Pacific, spent last week as guests of Mrs. George Dover and family and were accompanied home on Saturday by Edna and Jean Dover, who will spend a holiday at the McCubbin home in Pacific.

In the list of subscriptions to the Terrace Hospital last week we omitted to credit Mr. and Mrs. B. L. Pearson with \$2.50. In addition, a typographical error made it Jas. Taylor instead of Jas. Tyler, and to Mr. and Mrs. H. L. Sims instead of Smith was inadvertently acknowledged the gift of a kitchen sink.

Rollen Farmin, of Sandpoint, Idaho, arrived on Sunday to join the Hopper-Davis Mining Co. at Kalum Lake.

Tom Marsh, who has spent the past year in and around Calgary, returned home on Friday and is spending a holiday with his parents, Rev. and Mrs. T. J. Marsh.

Dorothy Whitlow, of Usk, is the guest of Doreen Wilson this week.

Roy Thomas, Art. Vanderlip and A. Cote attended the dance at Usk last Saturday.

H. Moyle, of Richmond Hill, Ont., is the guest of Mr. and Mrs. Glass.

Held Picnic at Kalum

It was a happy party that left Terrace on Sunday morning for Kalum Lake, to celebrate July 4 with their annual picnic on the grounds of Geo. Cobb. A good number from town and district took advantage of the ideal day to attend. A baseball game between the ladies and bachelors resulted disastrously for the latter by a score of 9-1. The races, for which the Kalum bachelors had subscribed \$25 for prizes, were hotly contested by the children. A boat race caused much excitement. The winner was Oscar Olander, and second was J. McLaren. The picnic is always looked forward to with a great deal of pleasure by a number of residents who make this yearly trip to Kalum.

Great Berry Crop

It is many years since the Skeena Valley produced such a wonderful crop of strawberries as is being harvested this year — perfect fruit and in such abundance that even the most serious-minded among the growers have been seen to smile. And the prices that are being paid are most encouraging. The majority of the growers have done away with the Alaska Sitka berries, the berries that nearly ruined the reputation of the Skeena Valley as a strawberry country. What remains of that imitation strawberry will be dug out this fall and real berries will take its place.

Dr. Wrinch has been a guest of friends at Colfax, Cal.

Timber Sale X7949

Sealed tenders will be received by the Minister of Lands at Victoria, not later than noon on the 15th day of July, 1926, for the purchase of Licence X7949, to cut 235,000 lineal feet of cedar poles and pilings on an area situated on portions of lots 2514, 2515 and 2516, north of Hazelton, Cassiar District.

Three (3) years will be allowed for removal of timber. Further particulars of the Chief Forester, Victoria, or District Forester, Prince Rupert, B.C.

BLACKHEADS
Blackheads simply dissolve and disappear by this one simple, safe and sure method. Get two ounces of peroxide powder from any drug store—sprinkle it on a hot, wet cloth, rub the face briskly—every blackhead will be gone.

HAZELTON NOTES

Mrs. Willisroft and Miis Willisroft of Vancouver, who are visiting with Mr. and Mrs. McInnes and Mr. and Mrs. Barrett in the Bulkley Valley, are coming to visit R. S. and Mrs. Sargent.

Dr. R. G. Large, who recently became a follower of Izaak Walton, is rapidly coming to the fore and has one of the best of stories to his credit. On Monday he hid himself away to a lake and in due time returned with sixteen fish and a coyote. He got the coyote alright because he brought the hide and carcass both back home and got the bounty. He ran over the coyote with his car.

J. F. Morrissy, school teacher at Babine, arrived in town early in the week for a holiday and is a guest at the Omineca.

John J. Dore, manager Prince Rupert for the Dominion Telegraphs, visited several points in the district over the week end. He and Wm. Boyle of Telkwa motored to Hazelton.

Dick Cusack, one of the Duthie mine staff at Smithers, is spending a holiday here with his old tillicums.

Misses Mazel Cox and Roberta Anderson were guests of Mr. and Mrs. Kirby at Smithers.

The Horticultural Society started supplying flowers to the trains the first of the month.

Allen Benson motored through to Prince George last week and took in the stampede. He says it was one of the best things he had ever seen. There were some twelve hundred people on there the first day. He found the road in good shape and he made good time.

Miss Monica Leresche, Streatham, Ootsa Lake, is visiting her uncle, B. D. Boden. She is enroute to join her mother now at Brackendale, Vancouver Island.

G. W. Dungate has given up the shoe and harness repairing business and is back on his old job at Sargents.

There were few people left in Hazelton or New Hazelton on the first of July. They nearly all went to Smithers.

R. S. and Mrs. Sargent gave a dance in their home on Thursday evening in honor of their guests, Mrs. and Miss Willisroft. It was a most enjoyable evening.

The W. A. of St. Peter's church will hold a strawberry social on the Mission House grounds July 17th (Saturday), from four until seven o'clock. All are welcome.

The sewing meeting of the W. A. to the H. H. will be held at the home of Mrs. Sawle on Tuesday next. All who wish to attend will find cars available at Mr. Sargent's and at Mrs. Anderson's.

Some auto drivers are requested to drive slowly around those sharp, brush screened curves on the Kispiox road and also to use their horn. It will save a repetition of a recent accident in which results could have been more seri-

ous. Those driving horses are entitled to some warning and to some protection.

OVERHEARD AROUND NEW HAZELTON

Ready-to-wear dresses in silks, voiles, canton crepes, silk underwear, ladies' and children's shoes, ladies' hosiery. — Mrs. J. M. Grahman, Prince Rupert. 49—

A family party from Fort Fraser arrived in this district on Saturday to spend the week-end. They came in a Ford car and had a fine trip.

There is now lots of ore at the Silver Cup and American View properties awaiting the arrival of pack trains to bring it down. Ore is being mined on both properties and there will be some good results once it reaches the smelter.

Pauline Furness, of Smithers, is a guest of Jane York.

The Conservatives of Skeena riding are to hold a convention in Prince Rupert on Thursday, July 22nd for the purpose of selecting a candidate to contest the riding at the September election.

Many carloads of poles are being shipped now. Every train going east carries about half its load in cedar. New Hazelton is contributing a good share to these shipments and for the next two months at least five or six cars a week will be loaded here.

Wanted Dairy Farm

A farmer and his son from the mouth of the Okanagan Valley, in Washington State, motored to New Hazelton in their Ford, arriving here on Saturday and camping until Sunday. They were looking for a dairy ranch or some open land where they could establish a dairy farm. Coming north they did not stop often to look about, but on their return trip they figure on looking over the farms more carefully.

The Scarlet West Tuesday

The Scarlet West depicts vividly the life of the frontier soldier. Real Indians are difficult subjects for promoting motion pictures, according to the producer of this picture who used 2,000 Navajos and Uts. The Scarlet West will be shown in the Hazelton theatre next Tuesday night. In it Custers last stand is revived, and other thrilling episodes in the conflicts of the American troops and frontiersmen with the Sioux. Four thousand people were used and it took many months to produce the picture.
